☐ Please check if any of the above information has changed since previous year.

II. MINING AND RECLAMATION

1. Was the mine active during the past year? Yes ☒ No ☐

2. If active, how much ore or mineral was mined? 108265 tons

3. How much new or additional acreage was affected during past year? 0

4. Briefly describe any new or additional surface disturbances that occurred during the past year. This description should include the type of work performed, and volume of material moved.

No new surface was disturbed. Any shale
mined was from existing quarry. Any
overburden removed was from land
previously stripped.

5. How much acreage was reclaimed during past year? 2-3 acres

6. Briefly describe the reclamation work performed during the past year. This description should include methods employed, and an evaluation of the results.

During the past year we continued
spraying of thistles. A few acres were
reseeded and we are working to help
these areas grow.

7. What is the total disturbed acreage at years end? 20 acres

8. Briefly summarize mining and reclamation planned for the upcoming year.

We will continue to move some overburden
which may start eating a couple of acres
of virgin ground. We will continue working
on our reclamation effort on those areas
that we probably won't be disturbing again.

NOTE: Section III., "Additional Information" applies only to large mining operations.

III. ADDITIONAL INFORMATION

1. An updated surface facilities map should be attached if there have been significant changes since the previous map was submitted.
2. Any monitoring results or other reports that are required under the terms of the approved notice of intention should also be attached.
